## SPONSOR SPOTLIGHT - UCARE

### Top 3 Reasons to offer Medicare Group Plans to 65+ Retirees and Spouses:

1. **Employees are familiar with benefits from work.** Nearing age 65, they get tons of mail about Medicare, often with conflicting information. Frustrated, employees ask at work, but the benefits office can't always help. Your Group Medicare carrier can help, because they know Medicare, so you don't have to.
2. **Employers that offer Group Medicare stand out,** by showing they care about employees even when they retire. Employers that offer Group Medicare plans give retirees richer benefits than they could find on their own, and retirees appreciate it. Group Medicare is a great addition to a robust benefit package.
3. **Adding Group Medicare is EASY to start;** there are no compliance issues, no minimum enrollment, no cost to the employer, and no extra work to offer this benefit. Plus, you can start any time of year. Your Group Medicare carrier handles all the heavy lifting: mailings, enrollment, education, etc. [Learn more about UCare Group Medicare](#)
